To Whom It May Concern:

Dr. Nataliya Todorova completed the ICAL CALL Certificate in January 2002. The work involved all aspects of developing and setting up a CALL laboratory in a school including budgeting, non-specific CALL software and activities, CALL specific software and activities as well as the utilizing the Internet in CALL.

I worked with Nataliya as her personal tutor and during her time with ICAL I was able to make a good assessment of her capabilities and progress through her work on the assignments.

Nataliya was very thorough and dedicated in taking this course. Her assignments were delivered with an obvious love for the subject of CALL and with plenty of detail by which Nataliya showed her great knowledge of computing as well as her interest in CALL.

As she worked through the material, Nataliya explained her understanding in a thorough and competent manner. She was always open to my suggestions as her tutor and her professionalism made our working relationship very pleasant. I have enjoyed working with her on this course and wish her every success in her future career.

I feel confident in recommending Nataliya to work in any CALL lab where her knowledge and skill in this area will certainly create an efficient and useful environment.
